

Residential High Efficiency Toilet (HET) Rebate Program

Replace your old, inefficient toilet and receive a \$125 rebate

The Coastside County Water District is offering a \$125 rebate for replacing each of your old, high volume toilets with a new High Efficiency Toilet (HET). HETs are rated as toilets that use 1.28 gallons per flush or less. All single-family residential customers are eligible to participate. Toilets must be installed in the CCWD service area, which includes the City of Half Moon Bay and the unincorporated communities of El Granada, Miramar and Princeton.

Rebate Guidelines

- ◆ Not sure if your existing toilet(s) qualifies for the rebate program? See the reverse side for ways to determine the flush volume of your toilet.
- ◆ Only makes and models of toilets on the CCWD approved list will qualify for a rebate. HETs on the qualifying list have been pre-approved for efficiency and performance standards to assure customer satisfaction.
- ◆ Rebate applications must be received within one year of the purchase date as stated on the retail sales receipt.
- ◆ Incomplete applications and those without original (or copy of) receipt will be denied.
- ◆ A CCWD staff person must verify (by onsite inspection) that each HET has been installed prior to issuing a rebate.
- ◆ The HET rebate is available until annual funds are depleted and is awarded on a first come-first serve basis.

APPLICATION FORM

Applicant Information

First Name: _____ Last Name: _____

Mailing Address: _____

City/ State/ Zip: _____

Installation Address (if different from mailing): _____

City/ State/ Zip: _____

Telephone Number: _____

Number of residents in household: _____

Toilet Information

Number of old toilets in household: _____

Number of new HETs installed: _____

HET toilet make/model: _____

SIGNATURE: _____ **DATE:** _____

*Applicants who are not the legal owners of the property must obtain the owner's signature waiving any claim to the rebate.

For Official Use Only: Inspection By: _____ Date: _____ Total Rebate Amount: \$ _____

How To Check Your Existing Toilet's Flush Volume

To qualify for a HET rebate, your existing toilet must be a non-Ultra Low Flush Toilet (ULFT), which flushes at 3.5 gallons per flush or higher. Your toilet is already a ULFT if it was:

- 1) Manufactured after 1992 (date may be stamped on the inside of the tank or tank lid)
Indicate the date if there is one: _____
- 2) Stamped "1.6 gpf" on the bowl of the toilet (near the seat hinges).

If you're not sure if you have a ULFT or a high-volume toilet, you can measure the flush volume by following these steps:

Measure your toilet (inches):	Calculate your tank volume:
<p>L: Inside length of the tank</p> <p>W: Inside width of the tank</p> <p>F: Depth of the tank water when full</p> <p>E: Depth of the tank water when empty (at the lowest point after a flush, right when the flapper closes)</p>	<ol style="list-style-type: none"> 1. $F - E = D$ (D = change in depth of water) 2. $W \times L \times D = V$ (V = tank water volume) 3. $V \div 1728 \times 7.48 =$ Gallons per flush 4. $\text{Gallons per flush} + 0.3 \text{ gal} =$ Your toilet's gallons per flush Error buffer

List Of Retailers Selling One Or More Approved HETs

The following list is not intended to be inclusive of all local retailers selling CCWD approved toilets, nor is this list an endorsement of any one retailer. Retailers appearing on this list will not necessarily carry (in-stock) all models on the approved list, but may be able to order.

Retailer	Address	City	Phone
Miramar Plumbing	123 Main Street	Half Moon Bay	(650) 726-5524
